Invitation

Dear Sir/Madam,

Thane, the city of lakes, has got its first opportunity to host the Midterm ISECON 2017! It's a matter of great pride for the entire Organizing Committee to invite you to this 1 ½-day ECG meeting!!

As you go through the scientific agenda, it would become obvious that the focus of all the sessions is ECG alone. Variants of ECG in a particular clinical situation will be highlighted and discussed threadbare during all presentations. To liven up the proceedings, 45 minute-long "case studies" have been interspersed, wherein correlation of the ECG with newer investigational modalities will be emphasized. In fact, this is the reason why ECG remains valuable even today, more than a century after its invention. Obviously, this can only be made possible by welcoming to Thane an Eminent Faculty of National and International repute.

We eagerly look forward to your active participation in the MIDTERM ISECON 2017 at Hotel Satkar Residency, Thane on 11th-12th November, 2017. The scientific content would interest every Consultant / PG in Medicine / Cardiology / Anesthesiology.
